**HOMEWORK ASSIGNMENT FOR
SUNDAY EVENING, FEBRUARY
24TH.**

Sharing the Abundant Life

Exercise - Make a list of all the souls you can think of from your sources. Remember that even though you may not think you have any prospects, most congregations are surrounded by a pool of unreaped souls made up of our family, friends and neighbors. Write down the names of those people of whom you are thinking. Include details such as addresses, phone numbers, and any other helpful information.

Assignment - Pray for the souls whose names are on your list. Keep that list in a handy place; keep those names ever before you.

Sue Long, Leon Beaver's mom, is recovering from surgery to remove a tumor in her throat.

Justin Elliott, a senior at Gilmer High School, was able to come home & is scheduled for surgery February 27th to remove a tumor in his head. He is the son of Ed & Ellen Grant of Overland Trails Log Homes.

George Huckaby, Becca's father, is back at home & doing better after taking a fall.

Elene Rivers, a teacher at the high school for many years, is doing some better after suffering problems from a fall.

Keith Coker, 10 year old grandson of James & Faye Davis, was killed this past week when a tree James was cutting fell on him. Keith is the son of Brian and Darlene Coker of the Hinton community. Please keep this family in your prayers.

We have had numerous church members out sick with various illnesses that are going around. Look around & see who's missing and give them a friendly call to check on them.

"The Power of Dynamite!"

Tom Green writes: "In 1846 an Italian named Ascanio Sobrero combined glycerol with a mixture of nitric and sulphuric acid and discovered nitroglycerin. In its pure form, nitroglycerin is very shock-sensitive (i.e., physical shock can cause it to explode) and degrades over time to even more unstable forms. This makes it highly dangerous to transport or use. In its undiluted form it is one of the most powerful high explosives known to man. Initially, it was thought to be too volatile for any practical use and its inventor was ashamed to be associated with it because it caused so many fatal accidents.

"In 1864 the Swedish chemist **Alfred Nobel** discovered that this shock sensitivity could be reduced to safe levels by mixing nitroglycerin with a certain variety of sand. This new safer explosive, called dynamite, became very successful and made Nobel a very wealthy man. The fortune he accumulated from dynamite and other related explosives is the basis of the **Nobel Prizes.**"

The Apostle Paul says in Romans 1:16, "**For I am not ashamed of the gospel, for it is the power of God for salvation** to everyone who believes, to the Jew first and also to the Greek."

The Greek word for **POWER (dunamis)** is the source of the word **DYNAMITE**. And just like Alfred Nobel had to mix nitroglycerin with another substance to take full advantage of its power, the Gospel must be mixed with faith and received into another substance, "the heart", in order to accomplish its intended work (salvation). As the Apostle Paul stated, the Gospel is "the power of God for the salvation of everyone who *believes*."

The Gospel (literally "**GOOD NEWS**") is that "Christ **DIED** for our sins according to the Scriptures, and that He was **BURIED**, and that He **ROSE** again the third day according to the Scriptures" (1 Corinthians 15:3-4).

Its POWER for salvation is available to those who: accept the Gospel in faith, believing in Jesus (Acts 16:30-31), turning from sin in repentance (Acts 17:30-31), confessing Jesus before men (Romans 10:9-10), being baptized (immersed) into Christ for the forgiveness of sins (Acts 2:38), and continuing to stand in it faithfully (1 Corinthians 15:1-2).
